Course Selection

Prior to enrollment in any online (OL) course, each student will meet with an advisor to complete a course selection form. All students in Grades 10-12 are required to complete a Graduation Assessment.

Course Outlines

Each Grade 8-12 course has its own course outline that offers a summary of the learning activities, assessment information, and all required resources. Course outlines are made available to students on the Homelinks website.

Substantive Activities

A *substantive activity* is usually the first assignment that a student completes for any OL course. The substantive activity must be completed within two (2) weeks of enrolling in an OL course.

- Students may re-take a given course for the purpose of increasing their final grade, or after having withdrawn, should they decide to do so. The highest final grade will be reflected on the transcript.
- If a student has withdrawn from a course, they may not re-enroll for it again until two reporting periods has passed.

Course Completion

Upon completion of the *substantive activity*, students will have a limited time to complete all course work.

- 4.0 credit courses are allotted 16 weeks for completion (excluding Winter Holiday and Spring Break)
- 2.0 credit courses are allotted 8 weeks for completion (excluding Winter Holiday and Spring Break)
