In the Primary years, children are assessed and evaluated according to their individual progress. It is expected that young children will acquire skills at differing rates and times.

The following checklist of learning outcomes is used to describe student progress. Checked boxes indicate learning outcomes covered to date.

1st term 2nd term 3rd term

	1" term 2	term	3" term
LANGUAGE ARTS			
Speaks and listens to interact with others			
Demonstrates enhanced vocabulary knowledge and usage			
Uses speaking and listening to extend thinking			
Reads grade appropriate literature fluently			
Recognizes elements of stories (plot, conflict, theme)			
Recognizes literary devices (alliteration, similes, imagery)			
Reads with fluency and expression			
Demonstrates an understanding of word patterns and word families			
Creates imaginative writing			
Creates clear, easy to follow informational writing (directions)			
Writes complete sentences using correct grammar and punctuation			
Writes complete compound sentences with correct grammar			
Spells frequently used words correctly			
Proofreads own writing and makes necessary changes			
Is beginning to use paragraphs			
Prints legibly and uses correct letter formation			
Begins to use cursive writing			

MATHEMATICS		
Can count to 100 by 2.s, 5's, 10's		
Can add and subtract to 100		
Can order numbers to 100		
Knows addition and subtraction facts to 20 (with support first term)		
Can extend and create repeating patterns of three to five elements		
Demonstrates an understanding of equality using manipulatives		
Demonstrates an understanding of fractions – half and quarter		
Can name and order days of the week and months of the year		
Can identify today, yesterday, and tomorrow on a calendar		
Can compare objects by length, height, and weight using non-standard units		
Demonstrates an understanding of standard metric units		
Can sort 2-D and 3-D objects using two or more attributes		
Gathers and records data about self and others		
Constructs and interprets graphs		
Can add coins to 100 cents		
Tells time to the half hour		
Demonstrates an understanding of multiplication		

SOCIAL STUDIES		
Interprets simple maps using cardinal directions, symbols, and simple legends		
Locates on a map landforms and bodies of water of local and national significance		
Describes ways individuals contribute to a community/environment		
Describes the roles and responsibilities of regional governments		
Describes their responsibility regionally and globally		
Describes characteristics of select communities and cultures in Canada and the world		
Describes jobs of some community helps – Fire Fighters		
	+	
Identifies symbols of Canada (and can compare with symbols of the US)		
COLLINGE DIO IDEAS		
SCIENCE BIG IDEAS		
Demonstrates living things have life cycles adapted to their environment		
Describes how materials can be changed through physical and chemical processes		
Demonstrates how forces influence the motion of an object		
Describes how water is essential to all living things, and how it cycles through the environment		
Can describe how a flight simulator is used		
FINE ARTS EDUCATION		
Explores elements, processes, materials, movements, technologies, tools, and techniques of the arts.		
Participates in Homelinks handwork classes		
Participates in Homelinks Aboriginal classes		
Participates in Homelinks/KHE drama experiences		
1 di ticibates ili Homelliks/KHE di alia experiences		
PHYSICAL AND HEALTH EDUCATION		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term)		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term)		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term)		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term)		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term)		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term)		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term)		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others Uses appropriate strategies to resolve conflicts		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others Uses appropriate strategies to resolve conflicts		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others Uses appropriate strategies to resolve conflicts Recognizes the importance of positive relationships and cooperates with others		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others Uses appropriate strategies to resolve conflicts Recognizes the importance of positive relationships and cooperates with others Sets personal goals		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others Uses appropriate strategies to resolve conflicts Recognizes the importance of positive relationships and cooperates with others Sets personal goals Can state ways to help prevent the spread of disease – hand washing, covering mouth when sneezing		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others Uses appropriate strategies to resolve conflicts Recognizes the importance of positive relationships and cooperates with others Sets personal goals		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others Uses appropriate strategies to resolve conflicts Recognizes the importance of positive relationships and cooperates with others Sets personal goals Can state ways to help prevent the spread of disease – hand washing, covering mouth when sneezing		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others Uses appropriate strategies to resolve conflicts Recognizes the importance of positive relationships and cooperates with others Sets personal goals Can state ways to help prevent the spread of disease – hand washing, covering mouth when sneezing Works independently when necessary Focuses on a task		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others Uses appropriate strategies to resolve conflicts Recognizes the importance of positive relationships and cooperates with others Sets personal goals Can state ways to help prevent the spread of disease – hand washing, covering mouth when sneezing Works independently when necessary Focuses on a task Organizes written work		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others Uses appropriate strategies to resolve conflicts Recognizes the importance of positive relationships and cooperates with others Sets personal goals Can state ways to help prevent the spread of disease – hand washing, covering mouth when sneezing Works independently when necessary Focuses on a task Organizes written work Shows a positive attitude towards learning		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others Uses appropriate strategies to resolve conflicts Recognizes the importance of positive relationships and cooperates with others Sets personal goals Can state ways to help prevent the spread of disease – hand washing, covering mouth when sneezing Works independently when necessary Focuses on a task Organizes written work		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others Uses appropriate strategies to resolve conflicts Recognizes the importance of positive relationships and cooperates with others Sets personal goals Can state ways to help prevent the spread of disease – hand washing, covering mouth when sneezing Works independently when necessary Focuses on a task Organizes written work Shows a positive attitude towards learning		
PHYSICAL AND HEALTH EDUCATION Participates daily in physical activities at moderate to vigorous intensity levels Demonstrates proper technique in physical activities Demonstrates respect and encourages others Demonstrates leadership in physical activities Demonstrates safe behaviours when participating in physical activity Demonstrates the importance of healthy lifestyle choices and proper nutrition according to the Canada Food Guide Demonstrates ways to avoid dangerous situations and substances (bear safety first term) Describes ways to access information for a variety of health topics CAREER EDUCATION and WORK HABITS Is considerate and respectful of others Uses appropriate strategies to resolve conflicts Recognizes the importance of positive relationships and cooperates with others Sets personal goals Can state ways to help prevent the spread of disease – hand washing, covering mouth when sneezing Works independently when necessary Focuses on a task Organizes written work Shows a positive attitude towards learning
